Board of Directors of the
Chester Water Authority
415 Welsh Street
PO Box 467
Chester, PA 19016

Dear Directors:

We, the Officers and Members of the Cochranville Fire Company, want to see the Chester Water Authority (CWA) remain a municipal authority and not be sold to a for-profit company. CWA is an asset to our fire companies in the Chester County communities. CWA is a good neighbor, providing a quality service and continuous support to our fire company.

CWA provides yearly inspections of all fire hydrants which helps our company in pre-planning efforts. By knowing the flows and pressures of each hydrant, we are able to make the correct choice as to which fire hydrant to use based on flow and pressure. We are also able to go out on the system and perform our own tests and practice the correct use of fire hydrants.

In addition, their leadership and employees are very responsive to the needs of our organization and extremely responsive when maintenance or repairs are needed due to public damages.

Therefore, in closing, we are asking for Chester Water Authority to remain as it is and not become part of a for-profit company. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert Linnenbaugh", with a long horizontal flourish extending to the right.

Robert Linnenbaugh, Fire Chief
