IMPORTANT RATEPAYER UPDATE

CWA was in Court yesterday (August 6, 2019) before The Honorable Judge Angelos.

- **The City of Chester's Attorney, Kevin Greenberg informed the Court that the City of Chester returned all of the RFPs (for the sale of CWA) to the submitters unopened. However, the actual letters tell a different story. The first sentence of the second paragraph states:**

  "The proposals are unopened, except insofar as was required to determine to whom to return the submissions."

- **The City of Chester previously said that they received 6 RFPs for the SALE of CWA, but in Court yesterday they only handed Judge Angelos copies of 5 letters they sent back to the submitters.**

- **The letters appear to be signed by Mayor Thaddeus Kirkland. Take a careful look at the signature on the letters. Is it a stamped or actual signature? If it's a stamp, why was a stamp signature necessary?**

Dear Sirs:

Unfortunately, as you likely have heard there has been some litigation relating to the sufficiency of public comment at the meeting of June 12, 2019. While we believe the City acted properly in all respects, I have decided out of an abundance of caution to return the proposals submitted on July 1, 2019 and to issue a new RFP in the near future.

The proposals are unopened, except insofar as was required to determine to whom to return the submissions. We hope that you continue to be excited about the possibilities of these water system assets. We will reach out directly when we are ready for you to propose again when the new request is issued.

Sincerely,

Thaddeus Kirkland, Mayor
City of Chester
